

REMARKS/ARGUMENTS

Further to the amendment filed October 14, 2009, Applicants voluntarily further amend the claims to clarify that the controller or means for controlling (or controlling step), actually controls the recording module and does not provide an optional feature. This is what was discussed between the undersigned and Examiner Brown during a telephone discussion on December 11, 2009. Consistent with this discussion Applicants file herewith amended claims that reflect the above described amendments.

In view of the forgoing comments and presently presented amended claims, it is respectfully submitted that the present application is in condition for formal allowance. A Notice of Allowance is earnestly solicited.

Respectfully submitted,
